Introduction

Hey there thanks for checking out the Affiliates Treasure. If you're anything like me then you've probably been looking for a way to make a decent income online.

Unfortunately, there is a lot of unethical ways to make money online that are being promoted by ignorant people and some people are not ignorant but still promote crap anyway.

Well, I've decided to put together this ebook for the guy or gal who wants to make money online in a legitimate manner.

The system you're about to learn can be used to make **\$100 a day or \$1,000** a day. However, I'm not going to lie to you and say you're going to make a million dollars overnight, but you can make a nice side income very quickly which can be scaled into a full-time income.

We're going to use the power of affiliate marketing and "freebies" to bring in some satisfying daily affiliate commissions.

People are looking for information that will solve their problems and they are willing to pay for this kind of information.

To be honest with you, most of the information people pay for is freely available on the internet but they're too lazy to search for it.

Also, people want to have the information they need organized in a step-by-step fashion. So, knowing this we're going to give away information for free and we're going to get paid for doing this.

You will see how this works as you work your way through this ebook...

Step 1 – Squeeze Page Setup

First things first, you will need your own website. You can either use a free website or a paid website.

If you plan on scaling this system to \$100 a day or more I recommend you get your own paid website.

If you just want to make some quick cash and you don't have a budget to invest in a hosting account and a domain name, then just go with a free website over at <http://www.weebly.com>

Your website needs to be a squeeze/capture page. A squeeze/capture page is a page where you will be able to capture someone's email in exchange for a free report or video.

That is an example of a squeeze page. You will need to create something similar.

You can use Weebly as mentioned before. They have tutorials and you can also search “how to create squeeze page with weebly” on YouTube and you will find tons of free tutorials.

Before you create your squeeze page I recommend you go through this whole ebook first so you can see the big picture.

Step 2 – Autoresponder Setup

Now, we need to get an autoresponder. This will allow us to capture email addresses automatically and these email addresses will be added to a list.

Then we will be able to promote relevant affiliate offers via email. I recommend you use [Getresponse](#), which has a 30-day free trial. 30 days is more than enough time to start making sales so don't worry about the 30 days being up and having to pay the monthly maintenance fee.

The idea here is that we will be giving away a report for free in exchange for people's emails. Then once we have the emails we can promote affiliate offers in the future and make some nice commissions.

This is the closest thing to autopilot money I can think of.

As long as you keep giving away your free report you will continue to make affiliate commissions. Once you complete this ebook you will see how powerful this is and I hope you take action right away so you can reap the benefits.

So, like I said you need an autoresponder like Getresponse. Getresponse will allow you to collect and list emails, send email broadcasts, and setup an automated email series which will go out automatically each time someone is added to your list.

Step 3 – System Integration

Now you need to integrate your autoresponder with your “squeeze/capture page”. This is the page where you will be collecting the emails and automatically adding them to your autoresponder.

Go into your getresponse dashboard and create a new list. If you don’t know how to do this, watch the

free getresponse tutorials or use the live chat feature to get instant help. You can also search on youtube “how to create a new list in getresponse”.

You will then need to create a webform. The tutorials in Getresponse will help you with this or you can check youtube.

Once your webform is setup you will need to integrate with your site. If you used weebly then you will need to put your getresponse webform into your weebly page.

If you bought hosting with hostgator and bought a domain with Godaddy then I recommend you install wordpress onto your domain.

This will allow you to use plugins that will make web creation a piece of cake.

The plugin I recommend is optimizepress, but I also recommend instabuilder or wp sales copy if you want to save some money.

Those are all various plugins that will allow you to create a quick squeeze/capture page and integrate it with getresponse.

As mentioned earlier, there are tutorials that come with every resource I mentioned and you can also find tutorials on YouTube that will help you with the technical stuff.

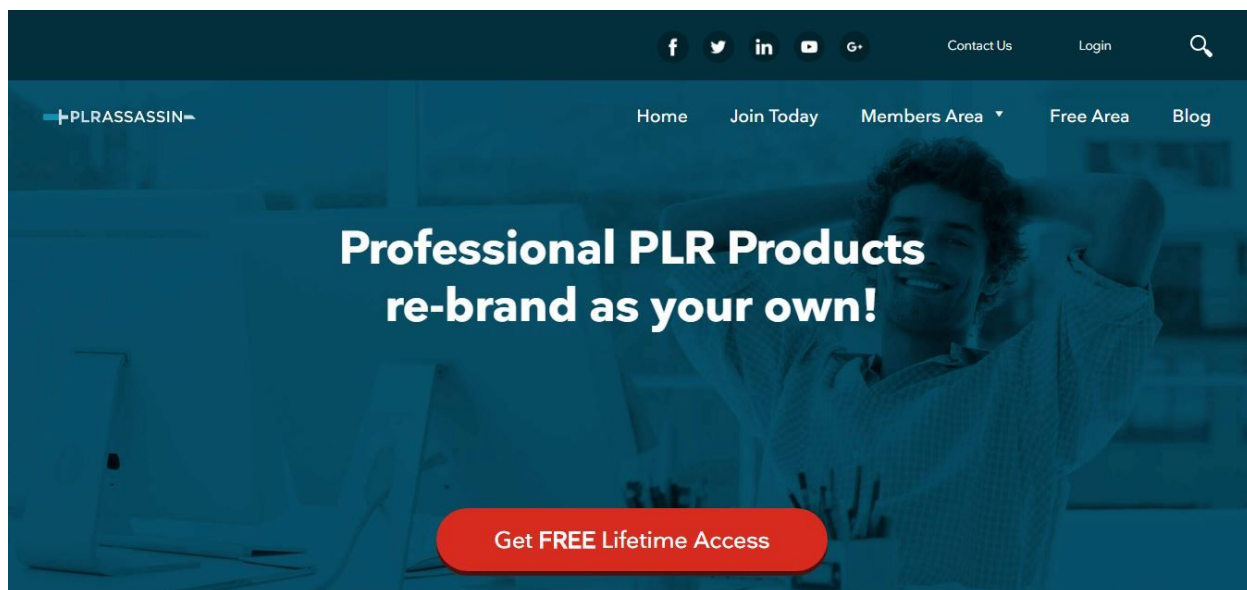

Step 4 – Freebies

So, as you know we are going to get paid to give away freebies.

The question is, what exactly are we going to give away?

Well, luckily this “freebie” is already created and you don’t have to create it yourself.

All you have to do is go to <http://www.plrassassin.com>

That site is essentially a treasure chest full of private label rights products that you can give away for free. Please don't get distracted by the thousands of products on that site.

Make sure you use the site, and don't make the site use you.

You can sign up for the free, gold, or vip membership. Right now I recommend you start with the free membership and later you can sign up for gold.

Choose a freebie relevant to the online marketing/make money online niche. You will find tons of ebooks on this site. Choose one of the ebooks you feel will be a very valuable giveaway.

Step 5 – Thank You Page Setup

Now you need to create the download page for your squeeze page. On the download page simply put the link to your freebie and a link to an affiliate offer.

Your download page needs to look like similar to what you see below.

Thank You For Checking Out Lost To Boss!

Step #1 - Download Lost To Boss and Bonns Action Plan PDF

[Click Here To Download Zip File](#)

[Click Here to Download Terms of Use, License and Privacy Policy](#)

Step #2 - Please leave your honest feedback

<http://www.warriorforum.com/warrior-special-offers-forum/889334-easy-3-000-month-passive-income-free-traffic.html>

Step #3 - Double Your Sales And Passive Income With These Email Secrets...

As you can see on the download page is where you will give away access to the freebie.

However, on that same page you need to promote an affiliate offer.

The example above shows 3 steps.

Step 1- asks the viewer to download the freebie.

Step 2- asks the viewer to leave feedback on the page where he/she accessed the product (only do

this when you have your thread up on the warrior forum which we will talk about in the next chapter)

Step 3- tells the viewer to click on a specific link that will show them how to get a specific result relevant to the result he/she will get from the freebie.

So, on your thank you page you need to promote a relevant offer.

The offer needs to be similar to the freebie you gave away.

For example, if you're giving away a freebie that shows people how to get traffic, the offer you're promoting should also show people how to get more traffic.

Step 6 – Traffic Generation

Now you need to create the download page for your squeeze page. On the download page simply put the link to your freebie and a link to an affiliate offer.

So, now that your funnel is setup, it is time to start driving targeted traffic to it.

The site I recommend you use to get traffic is the warrior forum.

The warrior forum already has the people who are interested in what you have, so there is no need to look elsewhere. However, if you want more traffic you can use youtube, facebook, twitter, Instagram, and many different platforms that have your targeted audience.

For now, let's focus on the warrior forum. There are two ways you can make affiliate commissions using the warrior forum.

1. Posting on the warrior forum with your signature link
2. Post a thread in the classified ads section or warrior special offers section giving away your freebie

Posting On Warrior Forum With Your Signature Link

Posting on the warrior forum is pretty straight-forward.

First, you need to sign up for an account.

The screenshot shows the Warrior Forum website interface. At the top, there is a navigation bar with the Warrior Forum logo, menu items for Forums, Marketplace, and Learn, a search bar with the text "Search 100,000 Discuss" and a Search button, and a "Sign up" button circled in red. Below the navigation bar is a banner for "THE AGENCY BOOTCAMP" with the headline "The Secret to Building an Agency in 90 days" and a photo of a man wearing sunglasses. The main content area is divided into "ALL TOPICS" and "FEED MOST RECENT TOP VOTED". The "FEED" section shows three forum posts:

- Sell the Offer, NOT the product...** by Peter Lessard, 3 days ago in **Offline Marketing**. The post discusses handling marketing for a service provider that sells the same products as everyone else, especially complimentary products, and offers a way to achieve 10x results. It has 9 replies and a share button.
- Low Hanging Fruit..Still can't figure out proper strategy..** by VictorMansoor, 3 days ago in **SEO**. The post asks for help in assembling key articles for longevity and finding low-hanging fruit. It has 10 replies and a share button.
- Doing Something Wrong? Affiliate Marketing Blog & Traffic** by TheJimboTron85, 3 days ago in **Internet Marketing**. The post mentions running a finance blog (financedoggy.com) and buying traffic from Facebook. It has 9 replies and a share button.

On the right side of the page, there is a "WARRIOR SPECIAL OFFERS" section. It explains that Warrior Special Offers (WSOs) are deals available exclusively through Warrior Forum. Below this, there is a "Warrior Weekly Deal: The Agency Bootcamp - Launch your own Digital Agency" by Gabriel, which is a "[FREE course] Get your First Client -- POWERED BY WF --" by Gabriel. A "View All Offers..." link is provided. At the bottom of this section is a red button that says "Launch your WSO". Below the offers section is an advertisement for "ticketnetwork PRIVATE LABEL" with a blue "APPLY NOW" button and the text "Drive Traffic. Market Tickets".

Then once you sign up for an account you can start posting.

Simply go to the main internet marketing discussion forum and start posting answers to people's questions. If you don't know the answer to a question then go and search the question on Google, find the answer, and then put it in your own words.

Once you get to 30 posts then I recommend you add your squeeze page to your signature.

If you add your squeeze page to your signature before 30 posts people will call you out and say that you're only on the website to get people to see your signature link and this will hurt your reputation.

So, make sure to wait until you have 30 posts before you add a signature link.

To add a signature to your profile, make sure you're logged in, click on "User CP", and then click on "Edit Signature"

The image shows a screenshot of a user control panel with a sidebar on the left and a main content area on the right. The sidebar is titled "Your Control Panel" and contains several menu items: "Your Profile", "Edit Your Details", "Customize Profile", "Profile Privacy", "Edit Profile Picture", "Networking", "Contacts", "Pictures & Albums", "Settings & Options", "Edit Avatar", "Edit Signature" (highlighted with a red box), "Edit Email & Password", "Edit Options", "Edit Ignore List", "Private Messages", "List Messages", "Send New Message", "Edit Folders", and "Subscribed Threads". The main content area is titled "Customize Profile" and contains three sections for customization: "Main", "Block Borders", and "Major Block Headers". Each section has various input fields for text color, background color, border color, border style, border width, padding, and background image. The "Main" section includes a "Font Family" dropdown, "Text Color", "Shaded Text Color", "Hyperlink Color", "Border Color", "Border Style", "Border Width", "Padding", "Background Color", "Background Image", and "Repeat" dropdown. The "Block Borders" section includes "Border Color", "Background Color", "Background Image", and "Repeat" dropdown. The "Major Block Headers" section includes "Text Color". Each section has "Preview" and "Save" buttons at the bottom.

Your signature needs to be attractive and irresistible to click.

If your squeeze page was giving away an ebook about driving traffic then a good signature would be, “Click Here To Get FREE Instant Access To My Ebook Which Will Show You How To Drive Thousands Of Targeted Visitors To Any Site Or Offer In 48 Hours!”

Make sure to hyperlink the text with the link to your squeeze page. This way when someone clicks your signature he will be sent to your squeeze page.

To make this work all you have to do is post 5-10 times a day, and you will start to get consistent traffic to your squeeze page. This method is very powerful. You will always get decent traffic to your site, but some days you will get a lot of traffic, depending upon how good your post is and the popularity of the threads you posted on.

Post A Thread In The Classified Ads Or Warrior Special Offers Section

Here is another way to get traffic to your squeeze page. This method will require a \$20 investment, but if you have a well-paying affiliate offer you're promoting, then it will be worth the investment.

Essentially you will be paying to list your ebook for free in the warrior classified ads section or for \$1 in the warrior special offers section.

Obviously if you list it for free you will get more people to sign up so that might be the better option. However, this method will require you to rewrite the ebook as it is against warrior forum rules to sell a private label rights product.

You don't need to use this method as it is optional, but if you're willing to rewrite the ebook then you can

buy a listing and post it in the classified ads section for free or in the warrior forum section for \$1.

If you need help setting up your listing then go to the FAQs section on the warrior forum for help.

The FAQs section is located at the bottom of the homepage.

The image is a screenshot of the Warrior Forum website. At the top, there is a navigation bar with the logo 'WARRIOR FORUM' on the left, and links for 'Forums', 'Marketplace', and 'Learn'. A search bar on the right contains the text 'Search 100,000 Discussi' and a 'Search' button. Below the navigation bar, a forum post is visible, starting with '28 Charles Goodnight 4 weeks ago in SEO'. The post text reads: 'Hey folks, Real quick question, does anyone know if google has recently released a new algo? When I say recently, I mean within the last few hours? Since 4 PM ... [read more]'. Below the post, it says '26 Replies Share'. A pagination bar shows '1 2 3 NEXT ►'. At the bottom of the page, there is a footer with four columns of links. The first column has the 'WARRIOR FORUM' logo and the text 'Warrior Forum is the world's largest Internet Marketing Community and Marketplace.' with social media icons for Facebook and Twitter. The second column is titled 'SUPPORT' and has 'FAQ' highlighted with a red box, along with 'Report Abuse' and 'Privacy Policy'. The third column is titled 'MARKETPLACE' and lists 'Warrior Special Offers', 'The War Room', 'Warrior For Hire', and 'Classified ads'. The fourth column is titled 'COMMUNITY' and lists 'Learn about Internet Marketing', 'Advertise with us', and 'Become an Affiliate'.

Step 7 - Email Marketing

Once you start getting traffic to your squeeze page you will start to build a list of emails. Since you now have an autoresponder, you can send out emails to the people on your email list whenever you want, and you can also set up automated emails that go out whenever someone signs up to your email list.

For example, you can setup an email series that sends one email out every other day.

You can alternate between content emails and promotion emails.

A content email is an email that is filled with valuable content that will help the reader solve the specific problem they're dealing with.

A promotion email is an email with the sole purpose of promoting a product or service.

Here is an example of a content email:

Thanks to 6 years of wasting my money and getting scammed, I was able to figure out a lot of different ways to make a consistent income online.

One of those ways is to use the talents and skills you already have and figure out a way to add value to the lives of others. For example, if you are a talented singer you could use that talent to add value to the lives of others, which would lead to money in your pocket.

Adding value to the lives of others may sound corny but I guarantee you can't name one person or company that is highly successful without adding value to the lives of others. Go ahead and think about that.

Anyway, back to what I was saying.

So, if you were a talented singer you could use your talent to sell services, sell products, or sell entertainment.

What you would do is set up a website and offer your service, product, and/or entertainment on your website.

You could also set up a YouTube channel and create entertaining videos while building up your fan base.

Eventually, you can partner up with YouTube and make money from the ads placed on your videos. You can also tell your viewers to check out your website for more info about you and your services, products, and entertainment.

Assuming you enjoy using your talent to provide value to others then doing it every day shouldn't be a problem. When you jump into a business you're going to have competition and obstacles to

overcome and if you don't enjoy what you're doing it will be very easy to give up.

That is why most people have a hard time building an online business because they try to copy and paste exactly what someone else is doing instead of doing what they're interested in.

For example, if you were a sports fanatic do you think you would have better success creating a sport analysis business or creating a gardening advice business?

So, you might ask; what if I'm not talented? Well you can just go into a field that you're passionate about or interested in. Even if you have no talents, you can go into a business that allows you to learn about something you're interested in.

You don't have to follow the crowd and do exactly what somebody else did. Even if you followed the exact same path as someone who became a millionaire you still might not get the same results,

because you don't have the same mindset, beliefs, and/or passions as that person.

Do your own thing. It's wise to have some form of guidance, but you don't need to be a clone of someone else.

To your success,
-John Smith

Here is an example of a promotional email:

Hey what's up,

I hope you're having a great day.

In case you didn't know, I just dropped a brand new ebook covering exactly what I'm doing at the moment to drive targeted traffic to my sites and offers.

If you're struggling with getting traffic to your sites and offers then jump on this opportunity as the price

is really low at the moment: [Click Here To Check Out The New WSO](#)

To your success,
-John Smith

I hope you're able to see the huge difference between the two emails.

One email is clearly designed to be helpful within the email while the other email is designed to get the reader to click a link.

I recommend you setup at least 7 automated emails in your autoresponder.

You don't have to do this, but you will make more money in the long-run for obvious reasons.

Conclusion + Action Plan

Well, congrats you've made it to the end of this ebook. In this chapter I'm going to summarize the Easy Affiliate System as well as give you a step-by-step action plan.

So, essentially what we've done here is we've created a system where we're giving away something for free and making affiliate commissions for it.

That is the whole system in a nutshell. The great part about this system is that not only are you getting paid commissions, but you're actually helping people. You're helping people with the free ebook, and you're helping people with the affiliate offer you're promoting.

This is a win-win situation for both parties. You will be happy and your customer will be happy.

The only thing I didn't add here is more traffic methods. The warrior forum has enough traffic for you to start making affiliate commissions but

eventually you will need to use other traffic generation methods to increase your traffic.

If you need help with getting more traffic you can do a simple google search you will find various ways to get more traffic.

Other than the warrior forum, I recommend you master 2 other proven and tested traffic sources. My recommendation would be YouTube video marketing, and Facebook advertising. If you master warrior forum, YouTube video marketing, and Facebook advertising you will have more traffic then you will ever know what to do with.

So, let me give you a fast-start action plan so you can know exactly what needs to be done in order to start making some easy affiliate commissions.

Action Plan

1. Create and setup squeeze page (Weebly or Hostgator + Godaddy)
2. Purchase and setup autoresponder (Getresponse)
3. Integrate autoresponder and squeeze page
4. Signup to freebie site and choose a freebie to giveaway
5. Create and setup thank-you page
6. Drive traffic to your squeeze page
7. Make affiliate commissions
8. Repeats steps 6-7 or repeat steps 1-7 using a new freebie giveaway

To your success,

-Ivy Livingstone
