Intro

One of the great things about the internet is that you can go into business for yourself from the comfort of your home. All you need is an internet connection & a Laptop, and you can make money online. Diving into the online world will free you from the daily 9 to 5 grind of a desk job and afford you more time to travel, indulge in hobbies, and spend time with the family.

Another plus point is that there are so many different ways to make money online.

To start, all you have to do is identify the profitable niche market appropriate for you. After that, there's no need to hire staff, rent space, or purchase expensive furniture.

Here are a mix of tried and true online ventures, as well as new businesses and niches:

Important Information From The Author

Dear reader,

Myself William Motley using this method of making money from last 7 years and it is working great for me. There is not even a single day when I did not make money through online.

To give true value to my readers, I keep checking the working of this method regularly on new Facebook accounts on regular intervals. To make sure whether this method is working correctly or not, I checked the authenticity of this method today itself, I followed this method in a step by step manner and I found it working perfectly & flawlessly.

I applied it on a totally new Facebook account which I made today itself, in the morning. I added friends by using the strategy mentioned in this PDF and **within 6 hours I was making money.**

I took latest screenshots of my Facebook account, **Clickbank account, warrior+plus account** and income proofs today and

inserted them in this PDF to give you the latest perspective and analysis.

One more thing that I want to add is that Facebook makes only minor changes in the interface of its website after every few months, so you should not worry about the changes that Facebook makes.

You should apply this method **without any hesitation** and if you follow it in step by step manner, then **I am sure** that you will start making **\$80-\$100 a day in just 3 days** and you will be making **\$500 a day within just 4 weeks** and it is my personal guarantee!

-William Motley.

Ok, Guys! **We must start now.** You might have read so many e-books on making money online, but no e-book gives you any guarantee that you will make money, right? But, here is the most realistic and practical e-book you have ever read in your life. It is a complete blueprint of making rock solid income consistently! This is the exact method which I use to make **\$500 a day** from my own Facebook account! By following this strategy, like hundreds of other users, you can also reach at \$500 a day in just 4 weeks, starting from scratch!

Step 1: Visit www.facebook.com and create a new Facebook account. If you already have a Facebook account, **do NOT** use it because it has your personal friends and it is **not** going to make you any money. Your

new Facebook account should look like a profile of 18-20 years old girl. Girls get more attention and gain friends quickly.

Name should be sweet & common one. It **shouldn't look like a fake profile**. It should be sober, natural and simple. Go to www.images.google.com and find the pictures that represent girls like flowers, candles, lips etc. and upload one of them as your profile picture. **Do not** upload picture of someone other. Enter as much information as you can into your profile because people do not like empty profiles. Simple eh!

Step 2: After creating your new Facebook Account, it is the time to add friends to it.

You can add maximum 5000 friends to your Facebook account.

Your motive should be to exploit this opportunity as quickly as you can. **This is the most important task.** How much money you will make depends upon the number of friends you have.

I will show you how I added **5000 friends in 7 days** only but you can start making money as soon as you have only 1000 friends (Just 2 days task).

Step 3: If you start adding friends **manually**, you can not add 1000 friends even in a year so we will use a strategy to add friends really fast! As per this strategy,

you need to find a **good email list generator**.

Please note, we are talking about an email list generator and NOT about an email extractor or email scraper or email harvester. **NEVER use an email extractor**, harvester or scraper because you are going to **waste** your time because an email extractor will simply harvest email addresses from the internet and give you the list of collected email addresses.

There are so many problems in using an email extractor, harvester or scraper. First, an email extractor extracts & collects email addresses from the websites randomly so the number of email addresses is limited upto the email addresses available on the

websites i.e just 100, 500 or 1000 email addresses. **Second**, it will also collect email addresses from the websites of business firms, companies, lawyers and doctors etc. which are of **NO USE** to you. Definitely, you would not like to send a friend request to a doctor, lawyer, advocate, carpenter or an accounting firm. It can put you in a serious problem. So, do not even think about collecting email addresses from the internet and using them to send friend requests. **Makes sense?**

An **email lists generator** is **different** from an email extractor/harvester/scrapper and is more **powerful** than that. An email lists generator generates lists of supposed email addresses using common names of the people of the countries **you want to target**.

These email addresses **belong to the general public and not to the companies,** firms or business houses.

The best thing is that you can use different combinations of the names, keywords, domain names and random numbers to generate the lists of millions of unique email addresses by repeating the task.

Using an email lists generator **you can target any market** in any country you want. For example, you can generate lists of email addresses of those people who are interested in **making money, losing weight,** poker, credit cards, music, websites, SEO, Twitter or Facebook applications etc. Not only this, you can also

target any country you want e.g. UK, USA, UK, Canada, Spain, Nigeria, Australia and any other country. I downloaded and tested different email lists generators, one after another. It took me 2 weeks and I wasted around \$1325 to find the right tool.

Yes, after wasting \$1325 and testing different softwares, I found '**Acute Email IDs Production Engine**'. I found this tool very impressive because there are two main reasons behind that. **First**, it is the **cheapest one** in price amongst all the tools I tested and rejected. **Second**, it is user friendly, easy to use & very effective. The best feature is that it saves email addresses lists in the **text file format (.txt)** which is a very important requirement for our method.

It is really cheap in price and you can easily afford it.

I know that I am taking risk by openly recommending a product. You might think that I want to sell you this software, right? No! This is not a crappy e-book which contains affiliate links from [Clickbank](#) or [Commission Junction](#) websites to make sales and earn commission. I am already making \$500 a day, so few more dollars from affiliate commission **would not** change my life.

I am recommending this software because I have already tried many other softwares after wasting a lot of time and money and I **do not want you to waste** your time and money like I did in searching for the right

tool. Although, I have made a recommendation but you are still free to use any tool of your choice but if you are going to buy any software other than **Acute Email IDs Production Engine**, then please make sure it has following features:

- Option to generate unlimited email addresses lists
- Target any country you want
- Target any niche you want
- Add random numbers while generating emails
- Save email lists in text file (.txt)

- View and remove email lists
- Add names into the database
- Add countries into the database.

While using email list generator from www.sagawebs.com I found that more than 80% of generated email addresses really existed and that was a very good thing. Means, **if you generate a list of 4000 email addresses then 3200** will be real ones and this is a fantastic figure. **You do not need to send emails** to these people. Facebook has a special feature to invite these people.

Warning!

I have noticed that few websites are cheating the customers by promising that they will give you Acute Email IDs Production Engine at a less price but it is a fraud. Either they will take your money and will not give you anything or they will give you that software which will be of no use for you. Even if they give you Acute Email ID software, they would not be able to give you license key because the activation is online. You will have to buy Acute Email IDs Production Engine thereafter again and it will cost you even more money. So just avoid these websites as there is no need to take risk. I bought my email list generator i.e. Acute Email IDs Production Engine from

www.sagawebs.com who is the genuine and original seller of this software. So, do not give your money to any scammer or any other website, simply visit www.sagawebs.com to get Acute Email IDs Production Engine which is the best email list generator that works perfectly.

Step 4: Using your email lists generator, generate an email addresses list and save it in a text file. It **should not take more than 60 seconds**.

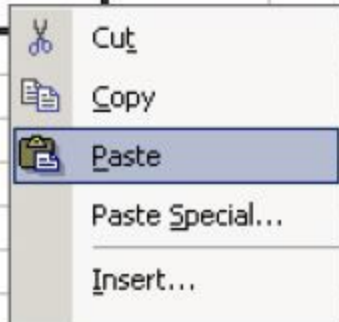

Acute Email IDs Production Engine automatically saves email addresses in the text files (.txt). If you are going to choose a different email lists generator then make sure that it has this feature because it is

very important. Now, we can use this email list **to invite people** on Facebook but Facebook does not allow uploading an email list directly on its platform.

Step 5: We must upload this email list on **Yahoo Mail website** in order to invite people on Facebook using Yahoo Mail. The email list must be in special format to upload on [Yahoo mail](#).

Step 6: Now, open your Text File in which email addresses list (you just generated) was saved. Copy all email addresses from it, come back to '**contacts.csv**' file, right click and paste all email addresses under the column 'E-mail Addresses' as shown in the picture below. Leave all other columns blank.

1	Name	E-mail Address	Home Street	Home City

After pasting email addresses, 'contacts.csv' file will look like as below:

Step 7: When you save this file, MS_Excel (or OpenOffice) will ask you a new file name but you can simply overwrite the file choosing the same name. Choose '**Yes**' if you see the following screen:

Trust me, you have **done 60% work** and are very close to **\$500 a day**.

Was it difficult? I do not think so! If you think it was difficult, then simply **read it again** and apply these steps while you are reading. You may find this process a bit boring, but **remember \$500 a day is not a small amount**.

Step 8: Now, create a Yahoo mail account by visiting at mail.yahoo.com or any other link Yahoo offers. Creating Yahoo mail is a **60 seconds** task. After creating your account, login to Yahoo mail and click on 'contacts' icon as shown in the image below:

Step 9: Click 'Import Contacts' option on the next page.

Step 10: Choose 'File upload' option on the next screen and click 'Import'.

At this page, **Facebook gives option** to find your friends by adding personal contacts. You will see a lot of options to add personal contacts on this page. Yahoo mail is also one of them. Click on 'Yahoo Mail'

icon. If Yahoo Mail is not available then click 'Other Email' icon.

Now, enter your Yahoo email and password on next window and your entire Yahoo contacts will be imported into new Facebook account.

Step 14: Now, Facebook will show you the list of contacts, it found in Yahoo Mail. Click '**Select All**' checkbox and click 'Add to invite' button.

Step 15: You will see that Facebook has added all the friends in the invitation list. Now click '**Invite Your Friends**' button and that's it! Facebook will send invitation to all these people. If the people on invitation list are already on Facebook then they will get friend request on your behalf and if they are not on Facebook, then they will get an

invitation to join Facebook to become your friends.

The screenshot shows the Facebook 'Invite Your Friends' interface. It features a 'From:' field with a blurred profile picture, a 'To:' field with a list of email addresses and a scroll bar, and a 'Message:' field labeled '(optional)'. Below these fields, it states 'Invites will be sent in English (US) [change]'. At the bottom, there are two buttons: 'Invite Your Friends' (highlighted with a red arrow) and 'Cancel'.

Step 16: After sending invitations, open 'contacts.csv' file again and delete all email addresses from it. **To invite more people,** simply generate a fresh list of email addresses using 'Acute Email IDs Production Engine' and paste it in 'contacts.csv' file and save the file again. Now, upload this file again on Yahoo and import into Facebook by repeating the

same process. You can do it as many times as you want by generating fresh email addresses every time.

On first day, I sent invitations to **800 people** and it took **just 20 minutes!**

Didn't you find it easy?

Yes! It is a very easy process. Apply this process while reading this e-book, it will make things a lot easier. Follow this practice only two times a day. It takes **only 2 minutes** to generate hundreds of email addresses.

Ok, when I sent invitation to 800 friends on first day, 334 people were already on Facebook and they got friend requests

immediately and the remaining 466 people who were not on Facebook got invitation to join Facebook via email.

...Result?

I added 26 friends in 1 hour only.

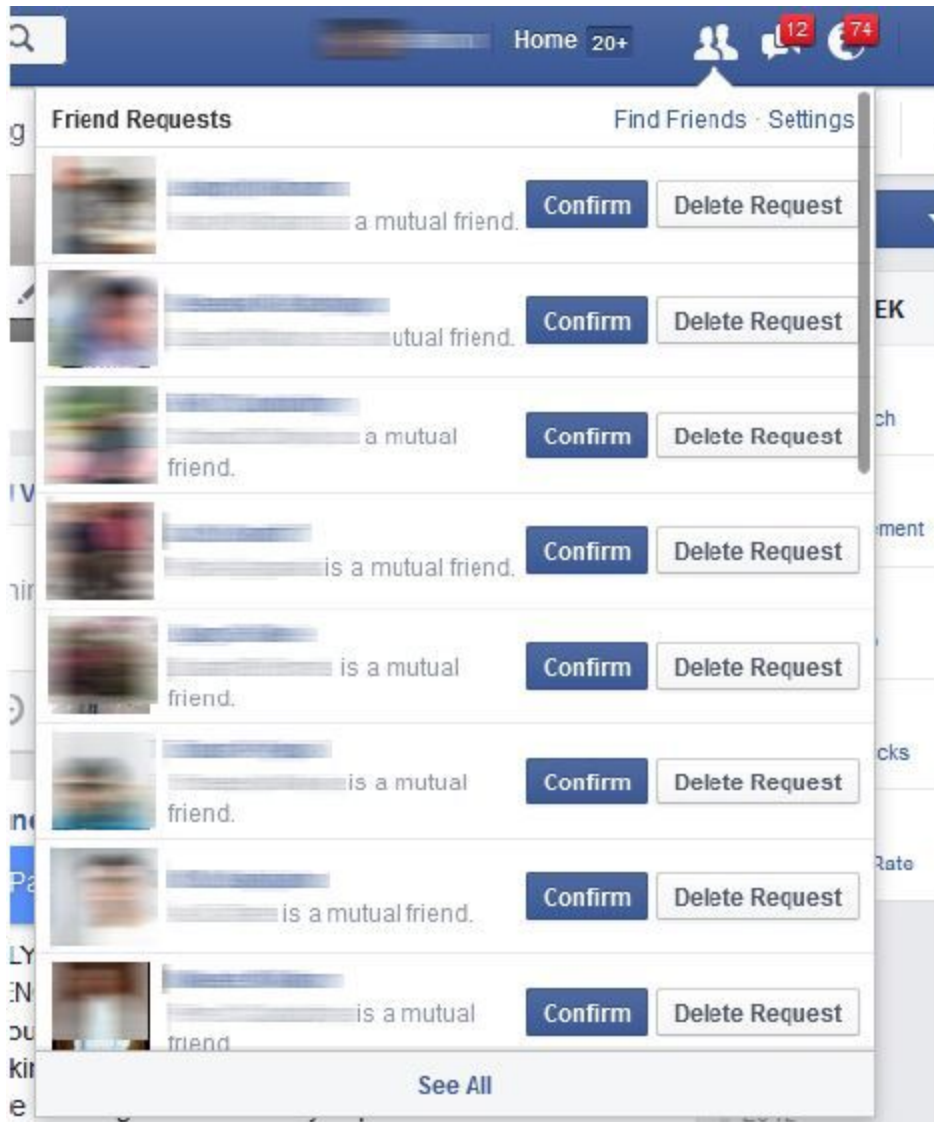

You know, Facebook activities **go viral**. When you add a friend, it is displayed on walls of both of you and a lot of other people notice your profile and because you have a girl profile, they also want to add you as a friend. Your work is just to accept these invitations.

See, how many friend requests I got within **next 2 hours.**

Yes, there were 39 friend requests and my job was just to add them one by one.

Here is the screenshot of huge number of friend requests that I got on the same day I sent the invitations. As soon as you get friend requests, you can add them as your friends by clicking 'Confirm' button. I have blurred the names of Facebook users to protect their privacy, as per Facebook **"Terms of use"**.

I added all of them as friends and now I had **63 friends in just 3 hours.**

After around **8 hours**, I checked again and got amazed that I had more than **250 friends** in my Facebook account. That was a fantastic figure! Most of the people to whom I sent friend requests had added me (just because of 'hot' girl profile.) Means, I got more than 250 Facebook friends in just one day! That was more than enough for me.

On 2nd Day, I generated more email addresses using 'Acute Email IDs Production Engine' pasted them in 'contacts.csv' file and uploaded it on Yahoo Mail and then from Facebook invited more people choosing 'Yahoo Mail' as an option.

This time I invited around **3000 people**. Again, those who were already on Facebook got friend requests on my behalf and those who were not on Facebook got invitations via email. At an average, generating email lists and uploading 'contacts.csv' file was taking only few minutes. I was doing this process just 2 times a day so I was spending only **20-25 minutes daily for this work**.

On late evening of 2nd Day, I checked my profile and found that I had more than **600 friends**.

I was taking screenshots every day, because, I was an active member at [Digitalpoint Forum](#) and was sharing my progress in this thread. The forum members were so excited with the results that they started sharing their Facebook accounts urls and their personal email addresses to add even more friends, faster. It was against Facebook as well as Digitalpoint rules so forum moderators had to delete the thread.

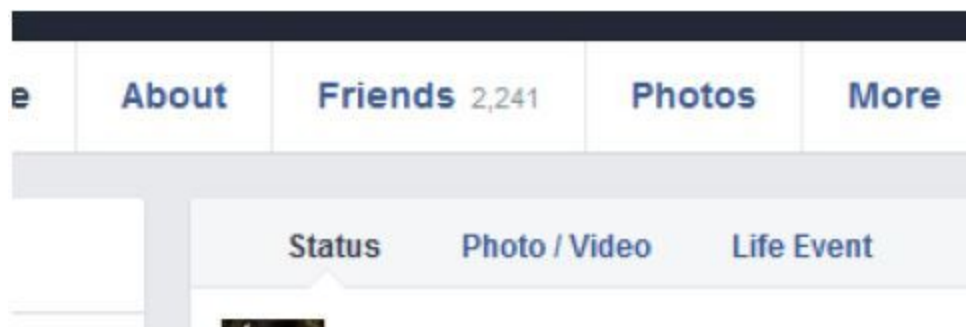

Anyhow, now I was **getting 70-90 friend requests daily** and was adding a lot of friends every day. I was uploading 'contacts.csv' file daily to my Yahoo Mail account and was using Facebook to invite contacts in my Yahoo Mail. I was using a fresh email list everyday as **there is no limit on the number of email lists** that you can generate using Acute Email IDs Production Engine.

I took this screenshot on **3rd Day**. Look at the huge jump in the number of friends.

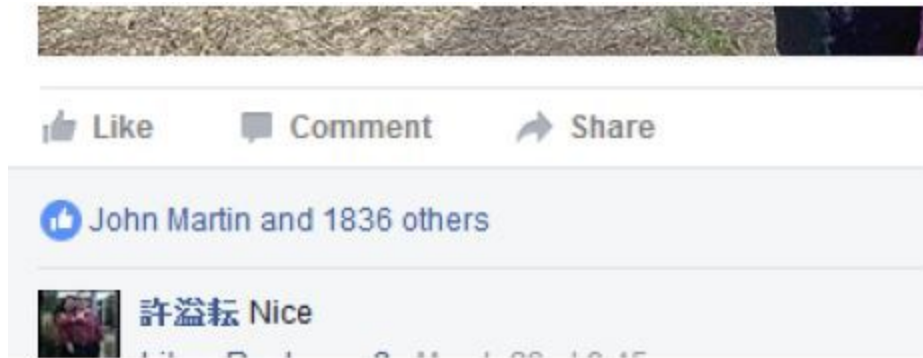

Actually, Facebook **does not allow you to send 20 or more friend requests manually** **but**, when you invite them through this method, this limit **does not apply**.

On **5th** Day, I had more than **2241** friends.

Now, I was getting **thousands of likes** for whatever I was sharing. Just have a look at this screenshot.

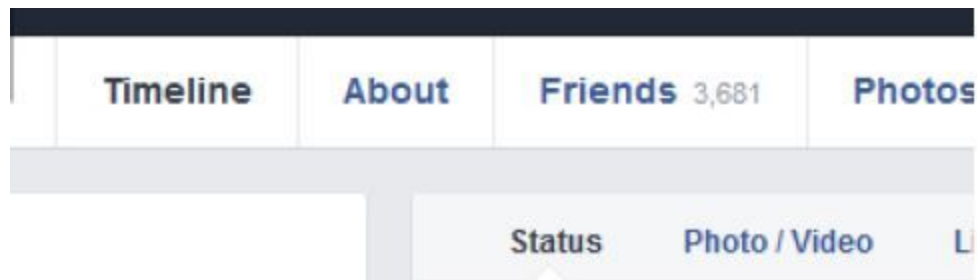

These “Likes” are for some images that I shared on my profile page, **I had not created any Facebook page yet.** You can share any item in which everyone is interested like images of **Apple iPhone, Beautiful Cars, Romantic Quotes etc.** etc.

See another picture of immense amount of “Likes”

Day-6 - Ultimate Growth Day!

Hurray! This was the **7th Day** & I achieved the target of adding **5000 friends**.

As you saw on the previous page, that I reached at **5000 friends in just 7 days** but still, there were a lot of pending friend requests and when I tried to confirm them I got this message.

Like I already mentioned that maximum number of friends which you can add is 5000 but you do not need to add 5000 friends and you can **start making money as soon as you have 1000 friends.**

So after I reached this number of friends, people could not send me friend requests anymore. If someone would send me a friend request he will see the following error message:

When you have **4000-5000 friends**, you get immense exposure to anything you post. Look, I got **695 likes in just 20 minutes** to a simple message I posted on my FB profile.

See, how many friends in my profile have birthday on same day, because I had a large number of friends, so there were a lot of birthdays on same day.

Once you reach at this level, **your 80% work is complete!** I added 5000 friends in just 7 days, but you need only 1000 friends to make money so it can be completed only **in 2 days ;)**

Best Advice That You Can Ever Get!

As you have seen that it is too easy to add 5000 friends to your FB Account with the help of Acute Email IDs Production Engine, Contacts.csv file and Yahoo Mail.

Still, if you think that it is difficult, then you should start doing this wonderful activity while reading this ebook. That means, starting & completing the tasks while

reading the ebook. **Go for step 1** and once it is completed, read and complete step 2 and so on. In that way, the time you will finish reading this ebook, you might have added significant number of FB friends to your account.

Step 16:

Creating a Facebook Page - No Investment Required!

In order to **make money** from your Facebook account you **must have a Facebook page**. As soon as you have just **1000 friends**, you can create a Facebook page and start making money from the same day. That means, **if you start today, you can start making money within 4**

days. (Adding 1000 friends takes 3 days only and you can create a Facebook page and start making money from **4th day**). Although, it will be **\$50 - \$70/day** in the beginning but within **just 4 weeks** you will reach at **\$500/day**. But even \$50/day in just 4 days is a BIG achievement! **Isn't it?**

Let's understand it this way

If you start on	You will have 1000 Facebook friends on	You can create Facebook page and start making atleast \$50/day from
Monday	Wednesday	Thursday
Tuesday	Thursday	Friday
Wednesday	Friday	Saturday
Thursday	Saturday	Sunday
Friday	Sunday	Monday
Saturday	Monday	Tuesday
Sunday	Tuesday	Wednesday

You can create a Facebook page on anything you want.

It may be about a particular subject you like for example a celebrity, computers, mobiles, laptops, games, MMO, matrimonial, weight loss, health tips or anything.

All you need is a Facebook account and if you have a Facebook account with 1000 friends (which is very easy with email list generator), then you **have gold** in your hands!

After creating a Facebook page, you can start making money from the same day. You will start selling products and earning commissions from your fan page from

VERY FIRST DAY and this is my promise. Not only this, as the number of 'Likes' for your fan page increases, you will get even more 'Likes' automatically at a **rapid speed** and you will make more money every day on complete autopilot!

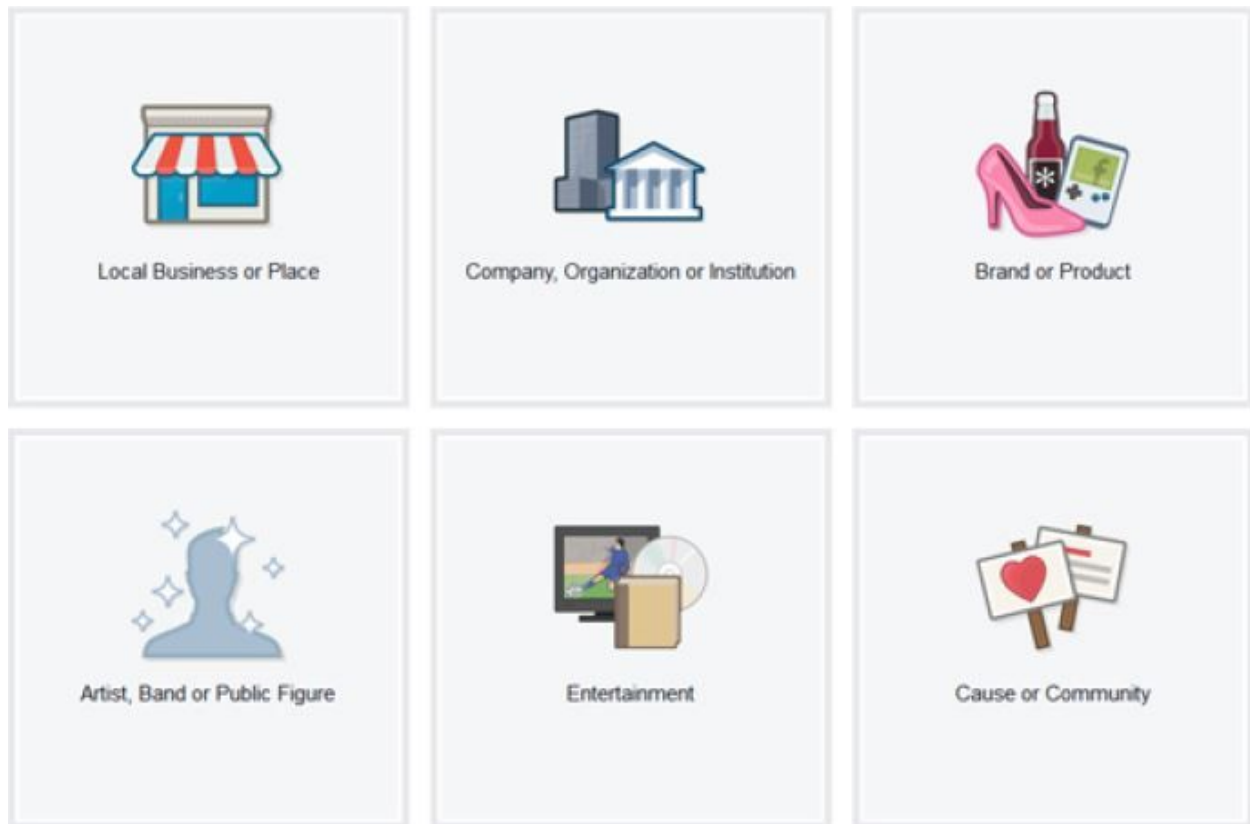

Most Important Lesson - Remember

Before creating a fan page, you must have **at least 1000 friends**. That does not mean that you can not create a fan page without having 1000 friends but if you create a fan page before having 1000 friends, then your page will not get enough exposure and it will be difficult to earn money from it.

Let's move to the next step...

How To Create A Page That Brings Avalanche Of Money To You!

First of all, visit <http://www.facebook.com/pages/create.php> to start creating a page, choose “Cause or Community” as page type and fill in all the possible details into your fan page.

Add an attractive image to your page to gain more attention. If you want to create a picture yourself then you can visit [Google Images](#) to get an idea. If you find anything incomplete in your fan page then complete it first before asking your friends to join it. Besides it, your page should have an **attractive and meaningful name** which is

related to the type of product you can easily sell.

For example, if you are interested in selling a product about “**weight loss**” then the title of your page can be any of the following:

- Stay fit by losing a bit – Get free weight loss tips every day
- Lose weight quickly – free daily diet info
- Fast results – Ultimate weight loss tips

After your page is complete in all respects, it is the time to make money :)

**How to start making money
without having any website or a
product?**

Because you do not have a website or a product to sell, so we will take help of Clickbank.

Clickbank.com is a digital marketplace where thousands of products are sold every day. It is one of the most popular website for those people who want to make money online without any website or a product.

It is **completely free to join**. [Clickbank](#) is that website where hundreds of informative products like ebooks, softwares and the membership sites are sold every day.

There Are 3 types of people who use Clickbank:

1. Vendors –

Those who create & sell the products like ebooks, softwares, memberships & courses on Clickbank. They are the sellers actually. Generally, the products sold on Clickbank are downloadable.

2. Customers -

Those who buy the products from Clickbank website.

3. Affiliates –

Those who spread the links of these Clickbank products on the internet to let people know about these products. When someone clicks on an affiliate link and buy the product, then affiliates earn commissions. Means, an affiliate is a **middleman** between customer and vendor

(seller) and sends the customers to seller's website through his affiliate link to earn commission on every sale.

Note: You are going to work **as an affiliate** in this system.

Your work is just posting affiliate links of Clickbank products on your Facebook page and sending the customers to seller's website. You will earn commission as soon as someone buys something after clicking on your link.

Now, I will tell you **how to make \$500/day** by working as Clickbank "affiliate" and using your Facebook page. You will get this money transferred to your bank account whenever you want. Your work is just

posting the links of Clickbank products on Facebook.

When someone **clicks on your link** and buy any product, you will earn commission. The commissions on the products are really high and ranges from 50% - 85% of price of the product. That means, if you post a link to a \$50 product and commission is 60% then you will get **\$30 for just ONE SALE!**

You **do not have to do anything** as your work is just sending the customers to vendor's product website, that's it! As soon as a sale is done through your link, the commission will be credited to your account and you can withdraw it whenever you want. Clickbank pays commissions via bank cheque or direct bank transfer. You can

choose the option in your account. But you can enter your bank account details in your Clickbank account only after **you have earned \$100 in commission.**

Creating a Clickbank account: So just visit at www.clickbank.com and create a free account. Fill in all the required details in your account to complete it in all respects.

A Secret Tip

In case you do not find your country name in the signup form on Clickbank, then do not worry. For example, if you are from Nigeria then you will not find “Nigeria” as an option in the list of countries, but still you can create account on Clickbank and earn

commissions. While signing up on Clickbank, enter any fake address and choose any country like USA. After you have earned \$100 in your Clickbank account, you can enter your bank account details there and money will be transferred to your bank account and it does not matter in which country you are located. They will ask you just your Bank Name, Bank Account Number and Bank Branch Code (Mentioned on your bank cheque book) and you will start receiving money in your bank account even if you are in that country which is not in Clickbank's list. Now, please do not share this tip with anyone.

Step 15: Generating your affiliate link:

After logging into your Clickbank account you can start making money instantly. Simply visit this link: <https://accounts.clickbank.com/account/marketplace.htm> This is the marketplace of the Clickbank where you can see all the products being sold on Clickbank. At this page, you will see an option to find the products:

A screenshot of the Clickbank 'Find Products' search bar. It features a yellow background. On the left, the text 'Find Products:' is displayed in a dark font. To its right is a white rectangular input field. Further right is a dark square button containing a white magnifying glass icon. To the right of the button, the text 'Advanced Search' is written in a smaller, lighter font.

Enter any keyword to find the products according to your taste. For example, if you can sell products related to “Weight Loss” then enter “weight loss” as your keyword and if your interest is in “Forex” then enter “Forex” to find the products. After entering the keyword, you will get a list of lot of

products. There's a button saying "**Promote**" in front of each of the product like shown below. Click on the "Promote" button in front of that product which you choose to promote. You must read this article which tells how to choose the best products to promote. But do not make it so hard, just choose any product whose price, commissions and the website appeals you.

When you click "Promote", a popup window will appear. In the popup window, enter your Clickbank Nickname and click "Create" to generate the affiliate link of that product. Nickname is generally the username of

your Clickbank account and is automatically entered while generating affiliate link.

A screenshot of a web form for creating a Clickbank account. It features two input fields: the first is labeled 'Account Nickname:' and contains the text 'james980'; the second is labeled 'Tracking ID (Optional):' and is currently empty. Below these fields is a green button with the text 'Create'.

In the next window the HopLink (affiliate link) will appear in the first field and HTML code in the second field. Copy the HopLink URL from the first field. You do NOT need the HTML code. That's it!

“Hoplink” or “affiliate link” is the same thing

Affiliate Program: HopLink for 'VENDOR 'Close

English

ClickBank pays you 75.0% when you sell _____'s product. To refer a customer send them to this domain name:

Copy the following HopLink HTML code and add it to your web page:

`Click Here!`

Congratulations! Now you have your own affiliate link or hoplink. This hoplink has a Tracking ID linked to your Clickbank account.

Now when a visitor clicks on your hoplink, he will be redirected to the website of that product which you selected to promote and if the visitor makes a purchase, you will earn commission. **Testing** your hoplink (affiliate link): It is important to check your hoplink (or affiliate link), before you proceed further. To test, if your Hoplink (or affiliate link) is working accurately or not, paste the

HopLink into internet browser (internet explorer, chrome, firefox etc.) address bar and hit Enter. The HopLink will take you to the product website. Read the sales page and, just for testing purpose, click something like “Purchase Now/Buy Now/Download Now” etc. on that page, just like you are a buyer. You will see the order form page. Scroll down to the bottom of the order page like shown in the image below.

1.

If your affiliate link is working properly, you should see: [affiliate = your nickname]

2.

If your affiliate link is not working properly, you will see: [affiliate = none]

Below shown picture shows a working affiliate link in which username of a Clickbank affiliate is showing up.

Now, you have your hoplink ready and we need people who click on your link and buy the product.

Remember, **the more clicks you get**, the more sales will be there and more commissions you will earn. **Never post any HopLink on your Facebook wall otherwise you will be blocked by Facebook and your account will be deleted.** **You can post Clickbank**

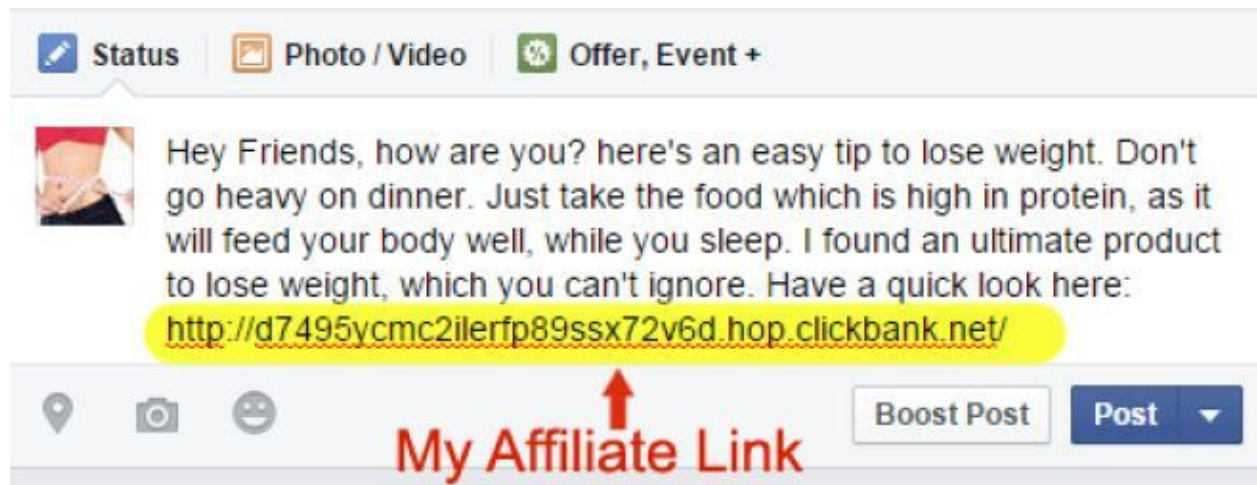

HopLinks only on a Facebook page created by you.

Now, let's start earning money **with your first post**

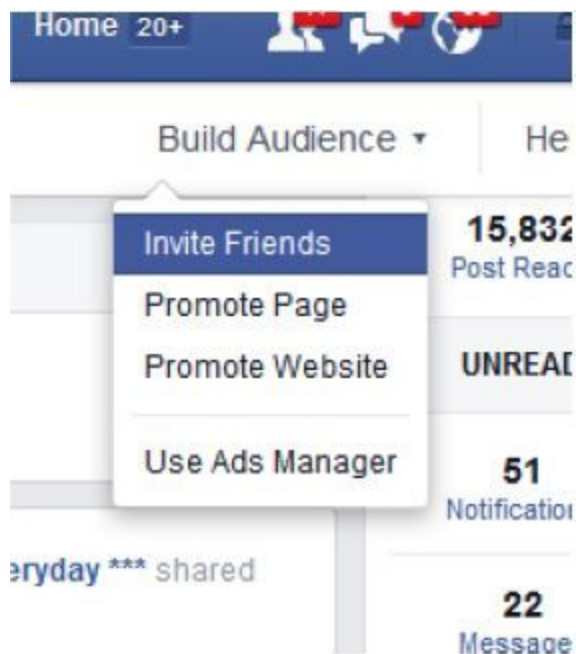

You already have a Facebook page, now it is the time to post “Status” and tell your friends about it.

“Status” is a message that you want to share with your fans. I promote “Weight Loss” products.

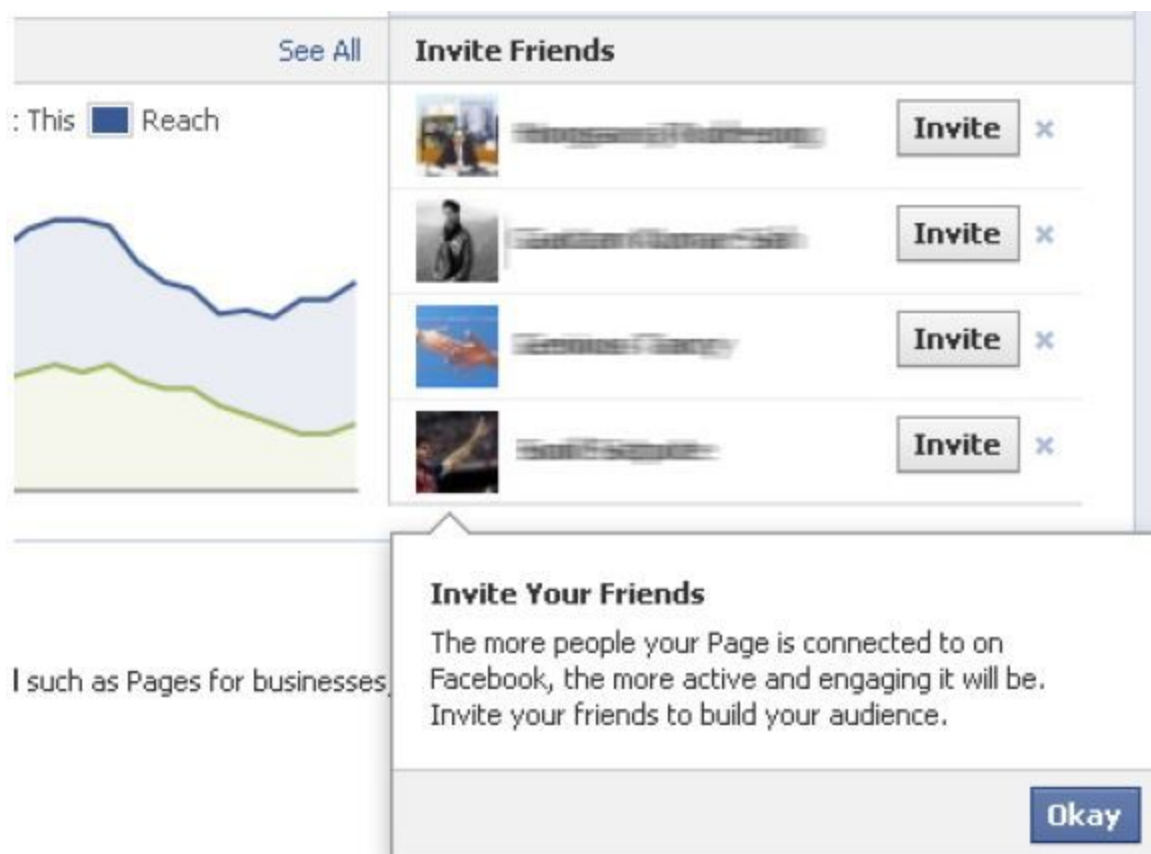

Every day, I post a **free tip on losing weight + affiliate link (hoplink) as a “Status”**. I find new tips every day from the internet and post them on my page with my Clickbank affiliate link. Here’s an example of an ideal “Status”:

After posting a status update, click “Build Audience” button on your page and then click on “Invite Friends” option.

It will open a widget “**Invite Friends**” on your fan page. In that widget Facebook shows all of your 5000 friends and there is a button ‘Invite’ in front of the name of every friend.

Once you click “Invite” button in front of your friend name, Facebook will send

invitation to your friend to join your fan page. Unfortunately, Facebook does not allow inviting all the friends in one go.

So, you can invite them only one by one and it makes it a time consuming task. **But remember**, once you have invited all of your friends, you will get a lot of clicks on your affiliate link and will earn a lot of commission in a really short period of time.

If you can not finish inviting all the friends in one day or in one sitting then no problem! You can invite the remaining friends on another day and so on. Remember, the more friends you invite the more money you will be making so **do not be lazy in inviting the friends.** **Once** someone “Likes” your page, he starts getting updates

about your fan page on his wall, **automatically**. **Means**, your fans will get notification every time you post something on your page.

How to make your fan page go viral!

Tip 1: Keep posting newer things on your wall about your fan page. **Ask people to join your fan page to get free tips in your niche**. Repeat this process few times a day and you will be amazed on seeing the tremendous growth.

Tip 2: Use 'Discussion' tab on your page to start discussions on your topic like 'weight loss' in my case. People like conversations and sharing ideas. Give them some tips

and they will share their tips too. This is really simple, just like chatting on your Yahoo messenger or any other discussion forum. You will also have administrative rights of your fan page, so enjoy it!

May I Tell You Again?

Like I said earlier that you can start making money from 4th Day because in 2 days you can add 1000 friends. On 3rd Day, you can create a fan page and post something with your affiliate link and on 4th Day, you can invite your friends to your fan page. As they will read your post and like to know more, they will definitely click on your affiliate link and will buy something from the website you are promoting.

As soon as I had 1000 friends, I started inviting friends to my fan page. It took me 7 days to add 5000 friends but on the other hand, I was also inviting my FB friends to my page.

I finished inviting 5000 friends in 10 days, but you can do this task in just 1 day, because you can start inviting them as soon as you have 1000 friends. When I finished inviting all of my 5000 friends on 10th day midnight, I went to the bed feeling tired and sleepy. When I checked my Facebook account on 11th day (next day) noon, I got a big surprise! I saw that **533 users liked** my fan page and it was a huge response.

When one of your friends “Like” your page, it is posted on his wall. Some of his friends may also like to visit your page and “Like” it and then their friends & so on...

Your work is just to wait and watch now! So, when on first day, 533 users liked my fan page, it was posted on their walls and you can imagine how much exposure my fan page got on the same day.

Day - 12 - Next day, when I checked the stats, I almost jumped in the air! See the viral growth! **It is RAPID!**

Day-13 – More than 100% increase in “Likes”.

Day-14 (A day of tremendous growth, this is how Facebook works in a viral way)

Day-26

Day – 28

On 29th Day, I had more than 50000 Fans – 2nd Target Achieved!!

Remember: You must have minimum 1000 friends to share your page otherwise, your page will not be popular.

Your first target should be to add at least 1000 friends to your FB account. This is totally easy and can be achieved in just 48 hours like I showed you. I showed you that 50,000 “Likes” can be gained in just 30 days but you do not need to get 50,000

“Likes” to make money because **you will start making money even when you have just 200 “Likes”.**

Remember: As soon as you have 1000 FB friends and 200 ‘Likes’ you will start making money.

How many posts & how much effective they are?

Just **2-3 posts a day** will be enough. It shouldn't take more than **25-30 minutes** a day.

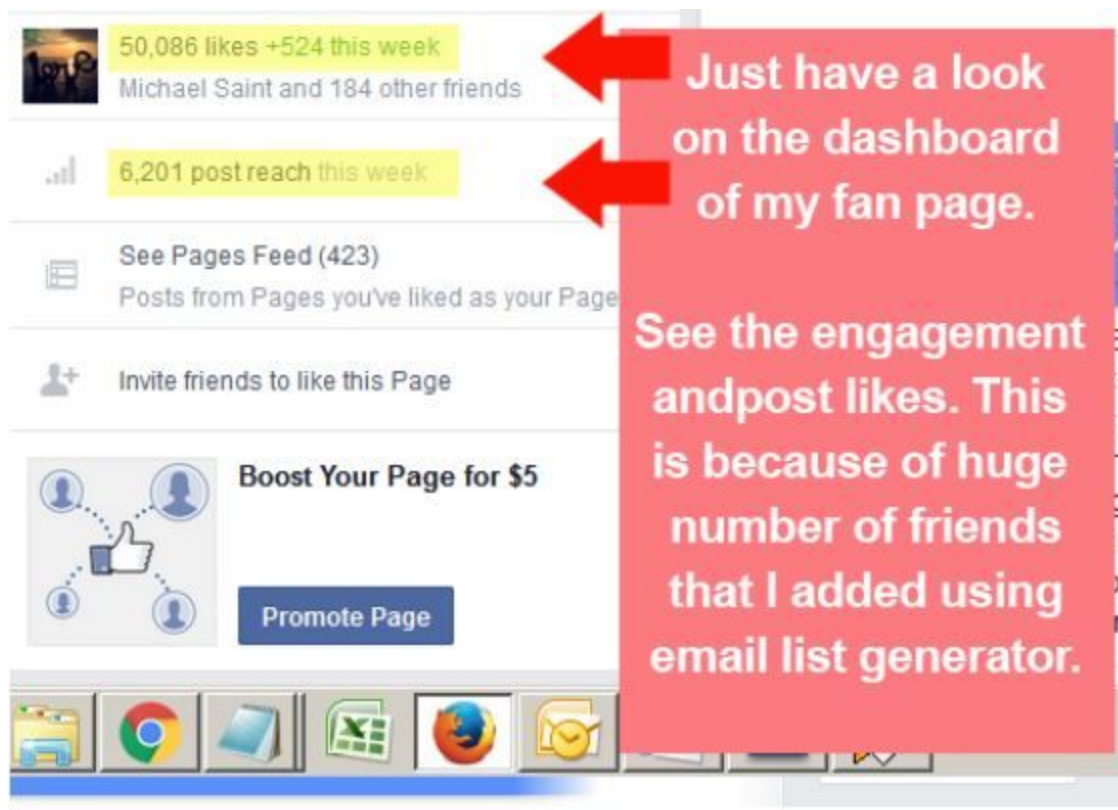

I post health tips, weight loss tips, diet information with my Clickbank affiliate links as status updates. You should encourage

your fans to click on your affiliate link to get more information about the products.

Let me show you the stats of my fan page that only administrator of the page can view.

Let me show you the screenshot of the dashboard, only the administrator can view it.

By viewing these images, **you can get idea about the traffic** that I am receiving and the number of clicks which I am getting on my affiliate links. The more “Likes” means more traffic and **more traffic means more click and sales.**

May I show you another screenshot of ultimate exposure that I am getting from my

Facebook page. One day, I made a post about a unique product and you can see how many people viewed and liked my “Status” and how many people on Facebook shared it with others. That is totally INSANE! **On that day I got 1022 hits on my affiliate link and made \$1148 on the same day!**

Lets Calculate Your Earning

Now suppose, you are too bad in writing posts and most of the people ignore your posts. But still if only **1% of your fans** click on your affiliate link and make purchases (this is minimum), then you will get at least 2 sales a day, and this is just the beginning. With the passage of time, you will get more friends, more likes and more sales.

200 fans X 1% = 2 sales a day - This is just the beginning What if you have 50,000 “Likes” like I have?

The figures I showed you are really easy to achieve and we've taken everything at its minimum. For example, getting 1000 FB friends is really easy with the help of a good email list generator like Acute Email IDs Production Engine. Once you have 1000

friends then having 200 “Likes” is too easy and just a childish game. Having 200 Likes means you can start making money because if only 1% people read and purchase the items from your affiliate links then you **will start getting 2 sales a day.**

Best Thing About Clickbank!

The best thing about Clickbank is that it pays you through online bank transfer. If you do not have a bank account, then you can get a bank account by going to a nearby bank where you live. As soon as you earn \$100 in your Clickbank account, you can enter your bank details and Clickbank will send your earnings to your bank account and thereafter whenever your earnings level reaches at \$100 it will be

transferred to your bank account,
automatically

You can also use **Payoneer US Payment service** to get paid via Clickbank if you are outside USA .

I remain too busy in my other online businesses and internet marketing campaigns, so I do not get time to post 2-3 updates daily. I usually post only **3-4 posts in a week** and I manage to get around **20 sales a day** because I keep getting traffic from previous posts too. I usually promote products which give commission of \$20-\$30 per sale, so I make **\$500/day really easy.** You will not believe to make \$500/day I do not have to do ANYTHING except posting

some updates on my fan page. This is **100% autopilot!**

I feel so safe about my family, life and the future because this is 100% secure and surefire way of making money from your Facebook account without any investment, website or a product.

In the **beginning**, you will have easy **2-3 sales a day** which will make you around \$50-\$60 a day but soon you will have more friends, more fans and more clicks on your affiliate links. You can reach **\$500/day** in just 4 weeks, like I showed you. Just imagine, how your life will change if you start making \$500/day with just 30 minutes a day.

Here are some of the other products which will sell easily on Facebook. Because majority of the Facebook users are **20-40 years old**, so you can sell anything amongst the following:

- Weight Loss (Hot niche)
- Games, Music and MP3 (Hot niche)
- Acne Treatment (Hot niche)
- MMO Niche
- Pregnancy control
- Teen parenting
- Facebook applications

-Surveys etc.

-Mobile ringtones etc. (Hot niche)

There are a lot of opportunities to make money with Facebook. Once you have got around 1000 friends, you can offer them surveys to complete, sell your own product, direct Facebook traffic to your website or blog, you can offer them “Email Submit” offers and much more and you can make a lot of cash with your FB friends.

The main thing is adding friends to your account which can be easily done **with an email list generator**. There are a lot of websites who pay you for just sending visitors to their websites and having them

fill a simple online form or just submitting their email addresses on the website.

Always remember, once you have added 1000 friends then there is **GOLD** in your hands and you just need to monetize that traffic. Your top most task should be to add 1000 friends in your FB account and that can be done in just **2 days**. Thereafter you can start making money really simple by just monetizing Facebook traffic.

It's very easy if you want to be continue and focused !

SO TAKE ACTION NOW!

It is Time To Make Money & Show The
World What You Are!!!

Have a great Journey to the new business!

If you searching for who will change your
life, it's YOU !

So, Focus on and Build your **FUTURE !**
