Hey marketer,

Making money is really easy online now. If you know the tricks, you can make a lot of money online. Here in this lesson, i will show you how to make money with clickbank affiliate marketing. Clickbank is the world largest digital products affiliate marketplace. You can earn a lot of money with clickbank by selling digital products. Clickbank gives upto 75% commissions on any products you sell. So if you sell a product for \$60, you will earn \$45. So if you can sell 20 products per month you will make $\$45 \times 20 = \900 . It's amazing money making ways. You do not need to buy or sell or ship any products because all products are digital, So it's easy to promote and sell to people.

How do you make \$500 a day on ClickBank?

Step 1 Go to Google and type in Buy PLR. You will get a list of websites which offer PLR.

PLR Private Label Rights are digital products that have already been written and produced for you for example E-books and video courses. You can buy the rights to these and you can brand them as your own **to sell or give away for free.**

Step 1 Buy the product you need that matches your niche.

Step 2 Set up a landing page.... so, you can use this to give away the PLR product. In exchange they must opt-in with their email address to gain access to the free training.

Step 3 Once you receive their email address they need to confirm their email address, and once they do this they now can download an eBook or video course.

You will have some success doing it this way.

However in order to make money faster we want to have a buyer's list of people. This method is much more powerful. As people pay attention when they pay for a product rather than getting it for free and a buyer's list has shown they have committed to buy. once we build trust with them they will buy from you again.

This method is much more complicated to set up. Not only do you need to know how to set up your landing page, auto responder, great sales copy, you need to be able to deliver extra value training in your back end funnel in order for this to happen.

This is the step where most people fail and give up as they don't know how to implement these steps outlined above.

Until now! Sean makes a six figure income doing this and he has put together a fantastic training program that

shows you how to implement the steps you need to run a successful affiliate marketing business.

Sean talks about everything inside the Inner Circle Masterclass program

Below is an explanation of what you need to do to make this happen .

Step 1 Go and buy Good PLRs products and set up a sales page, a product delivery page and payment gateway so you can be paid. You will also have to have your funnel set up to add extra value and training form the customer.

Step 2 Get customers to buy your PLR product, and sell it to them for \$10.make sure it's a very good quality product at a low price. So it becomes a no brainer for the customer.

Step 3 Once a customer buys your product you now have a buyer's list of people, which is much more powerful than freebie seekers. They are looking for something for nothing which they get, however they never buy lighter. That's why we focus on a buyer's list .

Example let's say this is a product about dating and a customer buys from us.

I can now have a list of people who bought something from me in the dating niche. I can sell them more products in this area using clickbank and other affiliate networks.

This way you can earn \$50 dollars. The money is made in the back end of the funnel after additional free training and bonuses are delivered to the customer. A happy customer will stay with you long term and will continue to buy from you. Always remember people do business with the person they like and trust best.

Fifth secret system is YouTube marketing. There are a lot of tricks on YouTube marketing such as video upload and ranking, comments on popular videos, put ads on YouTube videos etc. But today i share with you a separate trick where you do not need to upload any videos, no need to create videos. It's a hidden and secret method. Okay, let's discuss it. Go to YouTube and find some popular videos where you will see a few millions of views and over a few thousands of visitors everyday. When you find a few videos like above, then contact the owner of those videos and message them that you will put a short description on their videos for just 2/3 weeks. If they agreed, you can put a short description including your clickbank products. After a few days you will see amazing traffic flows to your products website and you must get a lot of leads & sales. I think it's a crazy method.

Sixth secret trick is fiverr. Fiverr is an online marketplace where you can sell your work and buy any work for just only \$5. So here you will see some gigs/offers where they will provide you 10k, 20k, 50k even 100k visitors for just only \$5. You just order and send traffic to your product

page or landing page. I ensure you must get many many leads and sales. It's an awesome method.

Seventh secret technique is blogging. If you are interested in creating your own blog and making money online. You can write some informative posts and set your affiliate link below the post. And other things is you need to set a popup subscriber form that will collect your visitors email address and this way you can build your email list. Also, you can promote clickbank products through banner ads on your blogs. But the most important thing in this method is collecting email and building email lists. You can use the following site to collect email addresses. It's the easiest and best tool I have ever known.

Eighth secret method is different. It is a mobile apps method. You do not have an idea how much traffic or visitors you can get through the mobile apps method. In the world, now millions of mobile users are using different apps to their phones. If you upload nice apps to google play-store and insert banner ads with clickbank product

links inside your apps, you will get thousands of visitors everyday and get a lot of sales.

Generally, if you put banner ads to relevant categories, I ensure you will get unlimited impressions and unlimited visitors to your clickbank affiliate product page. Only smart & big marketers are using this method.
