Hi marketer,

Warren Buffett said, "If you don't find a way to make money while you sleep, you will work until you die"

Buffet is so right. Poor people work for money while rich people find ways to make money work for them.

Did you know the surest way to make money while you sleep working online?

It's affiliate marketing.

Most people say it's easier to make money from affiliate marketing but it's not true. In fact, it takes years of consistent efforts and dedication to make money while you sleep from affiliate marketing.

Bloggers like Jeremy Schoemaker, Neil Patel, John Chow are making millions of dollars from affiliate marketing and they know how to make more sales without pitching much. So what can you do to become a successful affiliate marketer like them?

If you are struggling to boost your affiliate product sales, this guide will help you to fix this problem. In this guide, I'll show you how to make money from warriorplus marketplace as an affiliate.

How to Select an affiliate offer on Warrior Plus:

Warrior Plus is one of the fastest-growing affiliate networks, it is also one of the first networks to pay its affiliates instant affiliate commission although that seems to be coming to an end.

If you're new to Warrior Plus or affiliate marketing, in general, I am going to give you a step by step formula on how to select an affiliate offer on Warrior Plus.

In order to select an affiliate offer on Warrior Plus, please follow these steps.

Find A Good Offer To Promote:

In order to select a good offer to promote on Warrior Plus you need to click on the affiliate tab then offers as shown in the image below.

The offer will be arranged in a popularity order (the one that makes most of the sales on the given day will be at the top). This is my recommendation for selecting affiliate offers. Select affiliate offers that pay you between \$5 and \$20 with a 100% commission on front end sales.

In my experience, I found out that products that sell between \$5 and \$20 on the front end offer have a better conversion especially if you're just starting out. The only thing that you need to make sure is that the offer has some upsells and they pay you 100% commissions on the front end funnel.

Select affiliate offers that were launched between 3 to 12 months ago.

Most of Warrior Plus vendors want to attract super-affiliates during their launch period and in order to do this they need to keep high numbers like conversion ratio, visitor value, and low refund rates, so if you don't have any sales yet there is a high possibility that you won't be approved, in order to increase your chance you need to choose products that were launched 3 to 12 months ago, this won't hurt the vendor so much and probably big guys are not promoting it anymore so it is easier for the vendor to approve you, I won't go further than that.

When you make some sales, you can start to apply for new launches and this can skyrocket your profit. Select offers with 1000+ sales... You need to promote a product with more than 1000 sales, this is because if the product can't sell at least 1000

units after 3 months probably it is not a good product to sell. Select offers with conversion ratio 10%+ You need to select a product with a conversion ratio of 10% or more, this means that for every 10 visitors you sent to the offer at least one purchase it, this is not an exact science, it could be a little bit more or a little bit less but I won't go to promote a product with less than 5% conversion ratio.

Select affiliate offers with \$1 visitor value.

This means roughly you will make \$1 for every person that clicks that affiliate link, for example, if you send 100 visitors you will be expected to make around \$100, again this is not an exact science, it can vary depending on your call to action and traffic source.

The higher this number the better, don't promote an offer below \$0.8 visitor value.

Select offers with less than 10% refund ratio.

This is the number of people who purchased the product but decided to request their money back, this may be because the product is fraudulent, or the product didn't deliver the promise on the sales page (that is why you need to buy the product for yourself first), even if the product is perfect some people will still ask for a refund, this is the nature of this business.

You need to make sure that the refund ratio is less than 10%, this means you will have one refund for every 10 sales, this is not bad, for me personally I go for products with less than 5%.

So these are 6 things you should consider when it comes to selecting Warrior Plus products to promote as an

affiliate after you find the products that reach those requirements then move to the next step. Buy the product This is one of the deadly mistakes that new affiliate makes, you want to buy a product before you even start to promote it.

I highly recommend buying a product before even requesting for permission to promote it.

Why you need to buy a product.

To familiarize with it: It is the best practice to know the product you're promoting, first, this will make sure that the product is of high quality and second it will save you from embarrassment when one of your prospects ask you how to use the product if you don't know how you will lose your credibility and trust me it is very difficult to get it back. It is easy to get approved: Some vendors are very reluctant to let new affiliates to promote their products especially if you don't have any sells, the best way is to buy their product, and let them know that you liked it (if it is the case) and you would like to promote it (send them a receipt to show that you bought the products), I got approved every time I used this trick. Request permission to promote... In order to promote offers, you will need to be specifically approved by the vendor to do so.

In order to get approved this is what you need to do:
The “Get Offers” page is found in the Affiliate section (Click on “Affiliates” in the top menu and then “Offers”), and there you will be able to browse through the offers available for you to promote.

Select the offer you want to promote considering the criteria discussed in step 3.

So just click on the request button and you will be directed to the affiliate offer page where you can see some of the details.

Just fill the form that you will see, tell them that you want to promote their offer, tell them the traffic method you will use and that is it.

Some of the vendors will approve you and some won't if you're not approved don't worry try the next offer.

In order to increase your approval rate you can do the following

Record a video:

You can use your smartphone to record yourself showing your face, you can say something like this, Hi, Vendors

name, my name is 'your name' I am a new affiliate here at Warrior Plus, I have been learning how to build a business from 'name a big marketer who teaches affiliate marketing' I would like to promote your product, I will use 'name the traffic strategy' as my main traffic method to drive visitor to your offer, thank you 'your name'.

You can adopt a little bit to fit you, after finishing that video upload it to youtube make sure it is unlisted(only people with a link can see it).

Take a link and send it to them via the comment section on Warrior Plus, if you do this your approval rate will be more than 90%.

Add them in social media:

Another way to get approval is to add those vendors in social media, you need to make sure that your social media have the same name as in Warrior Plus and you use your real picture, after adding them, just reach out to them and tell them that you want to promote their product, most of the time they will approve you.

Those are two methods you can use to increase your approval ratio.

Once approved, you will receive an email from the system and then you will be able to access your affiliate links for that product.

6. Get Your Affiliate Link(s)

Click on “Affiliates” in the top menu and then click on “get links” and you will be taken to this page here:

<https://warriorplus.com/wsopro/affiliate/get-offers.php?&show=active>

On this page, you will find all the offers that you were approved to promote as an affiliate. Find the offer you’re looking for and then click on the green button that says “Get Link” next to the offer and inside the window that pops up, you will be able to copy Your Affiliate Link.

This is an example of an offer that meets all requirements I mentioned in the steps above, I made 2 sales when I was testing this, I just sent the offer to my list and the traffic is still coming. Promote your offer Once you have an affiliate link the next step is to promote your link to generate sales and commissions, there are many ways to do this, free and paid, if you are new and you don’t have any money stick to the free methods first.

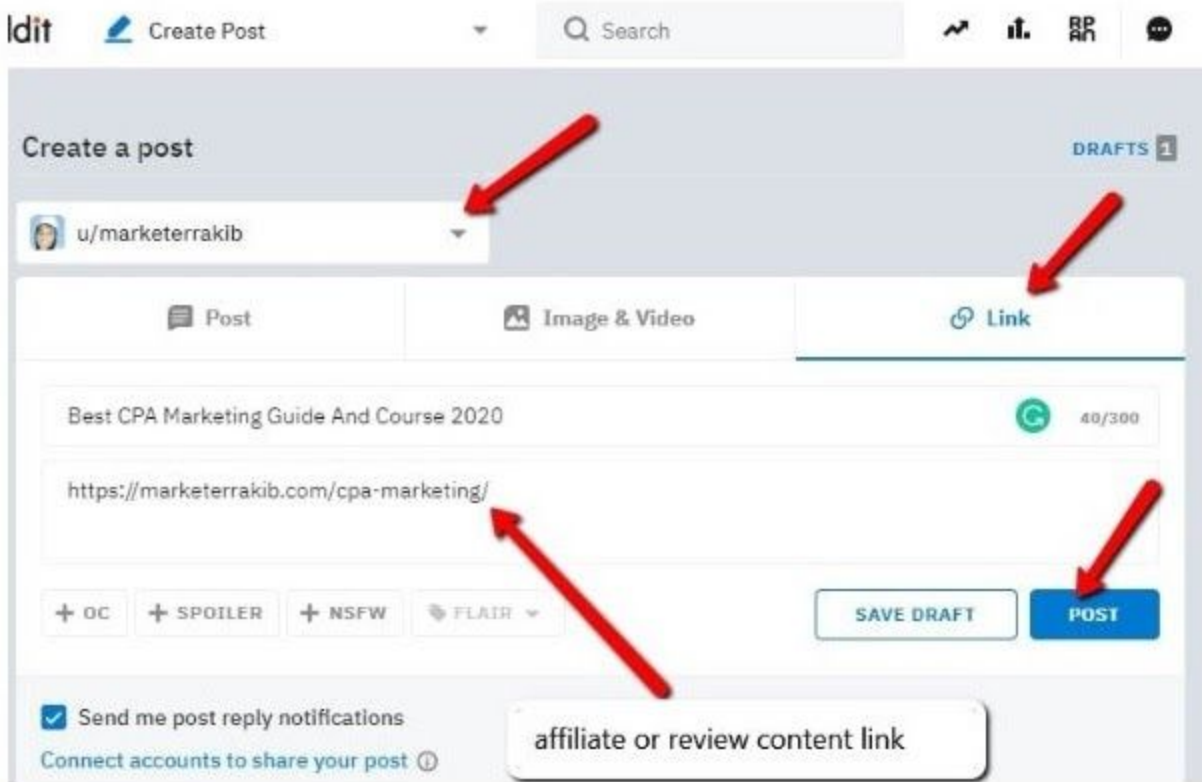

By the way, you can generate a lot of Free Traffic on your affiliate products, even on your website. But you need to know the right ways using Reddit. In this chapter, I'm going to share with you a Step By Step Guide of Reddit Affiliate Marketing.

The Best 4 Ways Affiliate Marketing On Reddit-

There are some direct or indirect ways of promoting Affiliate products on Reddit. But all things are not good for everyone. In those 4 methods, you can start Affiliate Marketing on Reddit very quickly. Also, you can use my methods for increasing your website's traffic through Reddit. Then share your products review contents links and it's the best way. Let's start Step By Step...

1#: Promote Products Through Links Submission

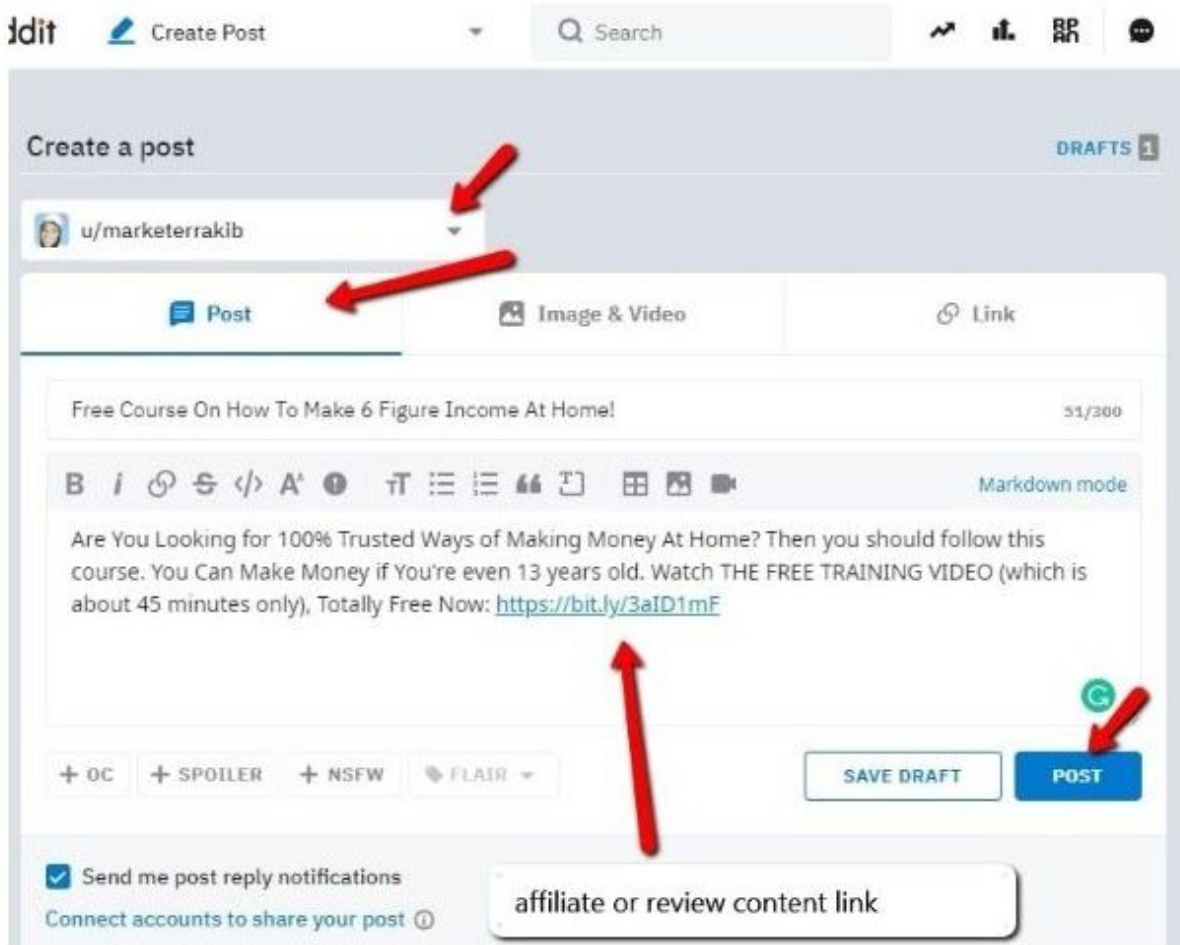

It's a very easy way of sharing your affiliate links on Reddit. Just create a profile or don't need it if you've already a Reddit profile. Go to the link submission button and submit your affiliate link. When you will select subreddit, you should target your products niche relevant subreddit. For example, I'm sharing a link.

I think you should not submit a lot of links one day. Try to become natural. Don't become a spammer.

2#: Promote Through Text With Links Submission It's another easy method like link submission. But you need to write a short description of your product and also submit your affiliate product link in the description. Don't forget to select the right niche relevant subreddit. For example, I'm sharing an affiliate product link here: It's another easy method like link submission. But you need to write a short description of your product and also submit your affiliate product link in the description. Don't forget to select the

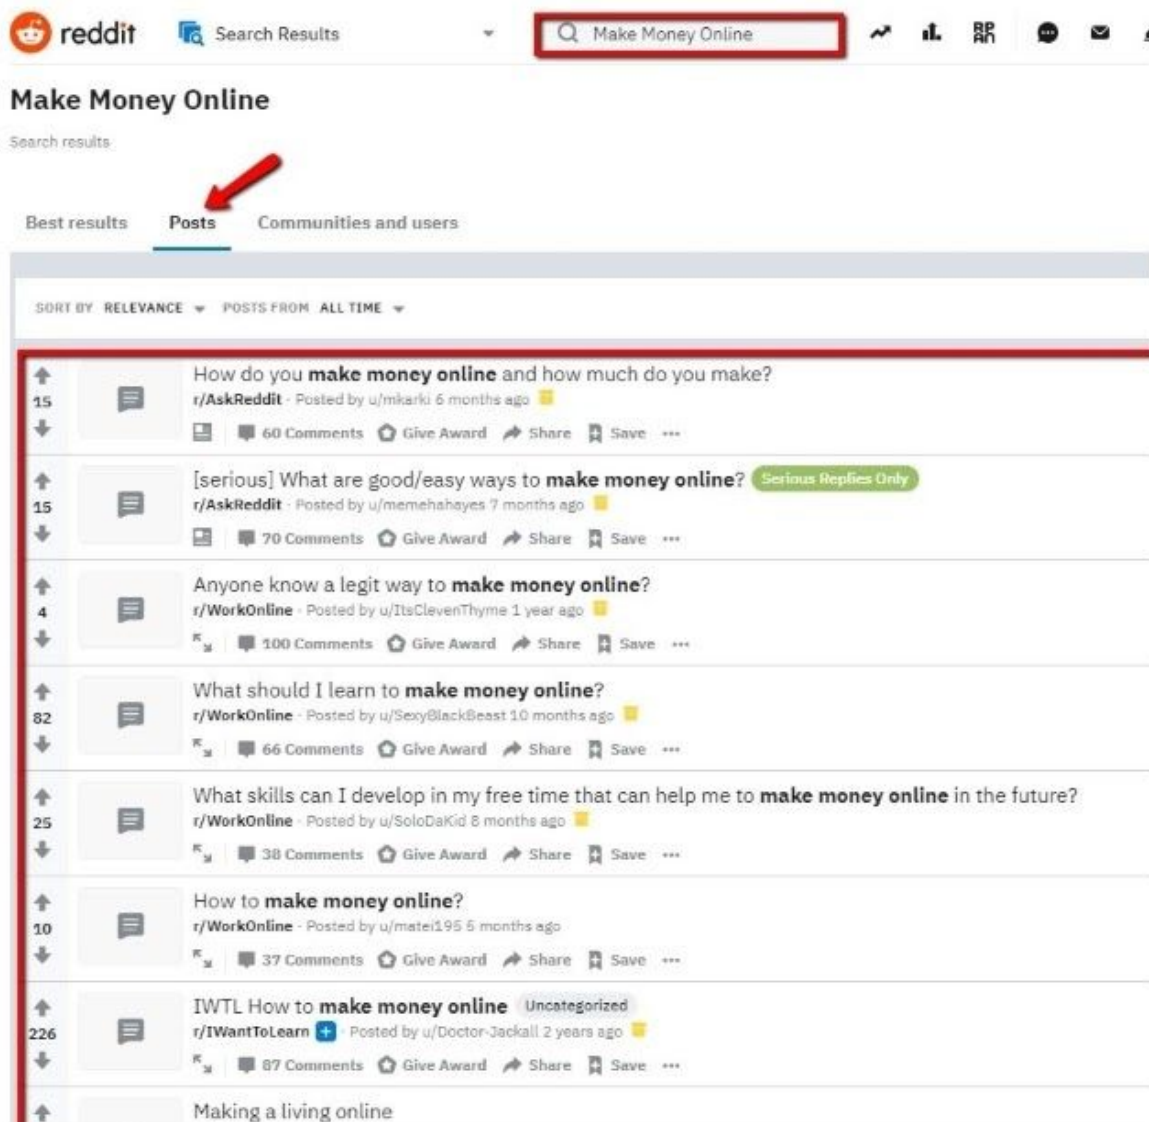

right niche relevant subreddit. For example, I'm sharing an affiliate product link here:

3#: Promote Affiliate Products On Targeted Subreddits

It's the best way of promoting Affiliate products on Reddit. You need to find your niche relevant SubReddit/Communities and Join. For finding niche relevant targeted forums, you have to search on the

Reddit search bar by typing your product niche keywords. For example, I'm trying to promote "A Paid Affiliate Marketing Course" as an Affiliate. So, I can search for those keywords like "Affiliate Marketing, Online Business, Online Entrepreneur, Make Money Online

After searching, I've gotten a lot of results. Now, I've to join every forum. You will get great some great communities that have already about (10k+, 50k+, 100k+, and even Million+ active members). After joining, you can share your affiliate links. But my suggestion you should not share any links instantly.

Firstly try to share some help posts without links and build your branding on the forum. Then you start sharing your product links with images or text. Some forums owners will not allow you to post direct referral links. They may be flagged your post. Because communities or subreddits are not created for promotional links sharing. Communities are created for helping each other. It's the best practice that you should share products review contents links.

In this way, I hope that you will get a lot of traffic on your affiliate products and able to generate sales.

My #1 Recommendation:

Honestly, if you have never experienced making
numerous
big ticket commissions on autopilot all day long,

You need to see this brand new system from my good
mate Brendan & Jono.

They have essentially reverse engineered the system, and
show you how to make commissions all day long,

and the best part is you can be promoting over 1000's
products all at once.

It's literally unheard of and bloody mind boggling at what this can do.

Seriously, it's sheer genius.
